

Prostate Cancer

Simon RJ Bott, MD, FRCS, FEBU

Keng Lim Ng, MBBS, PhD, FRCS
Editors

Simon RJ Bott, MD, FRCS, FEBU, is a Consultant Urologist at Frimley Park Hospital in Surrey, UK. He trained in four of the major London teaching hospitals and did his core surgical and specialist Urology training in and around London, working with leading figures in UK prostate cancer care. His interests include minimally invasive treatment of prostate cancer, multiparametric prostate MRI scanning, template prostate biopsies, and fusion targeted template biopsies among others. Dr. Bott has published over 50 papers in prostate cancer and presented at major international Urology meetings. He has edited several books, including the bestselling *Images in Urology*, and continues to research the diagnosis of prostate cancer, and teach the next generation of prostate cancer specialists.

Keng Lim Ng, MBBS, PhD, FRCS, is a Specialty Doctor in Urology at Frimley Park Hospital in Surrey, UK. He practices as a general Urologist with a special interest in tailoring novel treatments such as Aquablation, Urolift, Rezum and ITIND for men with benign prostatic hyperplasia. He is involved in many clinical trials for benign prostatic hyperplasia and urological cancers. Dr. Ng has published extensively in peer reviewed urology journals and has consistently presented at local and international urological conferences.
