

Stroke

Seena Dehkharghani, MD
Editor

Seena Dehkharghani, MD, is an Associate Professor of Radiology and Neurology, and the Director of Stroke and Cerebrovascular Imaging at the New York University Langone Medical Center, and New York University Grossman School of Medicine. He previously served as Director of Stroke Imaging at Emory University Hospital, where he was Assistant Professor of Radiology and Imaging Sciences and Neurology. His clinical and academic focus is centered upon the study of cerebral perfusion, metabolism, and viability, as well as hardware development for mobile stroke detection. He has been a funded investigator or co-investigator in multiple federal, foundation, and philanthropically funded studies and industry-funded stroke trials. He has extensively published on stroke and cerebrovascular disease.
